About The FACES Foundation

The FACES Foundation was founded in 2006 to acknowledge and promote professional excellence in the education and care of patients with life-threatening pulmonary illnesses. The FACES Foundation is dedicated to educating professionals, patients, and families on issues relevant to lung disease.

How will Recipients be Recognized?

PHIL Award recipients are presented a certificate of recognition and the *Appreciation* sculpture, adapted by artist MK Shannon specifically for The FACES Foundation. The sculpture represents the appreciation patients and their family members have for respiratory therapists that work hard to help them breathe easier. Along with the sculpture, information about the recipient and why they were selected will be displayed at Midland Health.

Share your experience of outstanding care and treatment with us. Please provide details of how a respiratory therapist has provided professional excellence and compassion in the education and care of a specific patient and/or family dealing with pulmonary illness.
