

# FIND YOUR WAY

## MIDLAND HEALTH IS LIGHTING YOUR PATH TO GREAT CARE

Our recent growth has offered us new opportunities to provide our patients with excellent healthcare. However, we are aware that this growth has created new challenges for our patients as they attempt to meet appointment deadlines.

That's why we have adopted a new wayfinding plan and signage throughout the campus so that our patients can more easily navigate our facilities. This is one more example of how we're lighting the way to make our patients healthcare experience as seamless as possible.

**All parking areas and facility entrances are now color coded.**  
**Easily find your way by utilizing the parking area and entrance that correspond to your destination.**  
**For example, Scharbauer Tower visitors should park in Green Parking and use the marked Green Entrance to enter the facility.**

### HOURS:

Emergency Entrance: 24 hours  
All other entrances open from 5 a.m. – 10 p.m.
